***Response to Arguments***

1. Applicant's arguments filed 3/22/06 have been fully considered but they are not persuasive. In response to applicant's argument that the references fail to show certain features of applicant's invention, it is noted that the features upon which applicant relies (i.e., "the tilt occurs along a single horizontal axis and alone an entire plane", "the platform's tilting motion can be translated from one position to another along the plane", the tilt is rotated for continuous motion about 360 degrees") are not recited in the rejected claim(s). Although the claims are interpreted in light of the specification, limitations from the specification are not read into the claims. See *In re Van Geuns*, 988 F.2d 1181, 26 USPQ2d 1057 (Fed. Cir. 1993).

***Claim Rejections - 35 USC § 102***

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

**a.** Claims 1, 12, 23-24 are rejected under 35 U.S.C. 102(b) as being anticipated by Cassidy et al. The rejection from the previous office action is incorporated herein.

***Claim Rejections - 35 USC § 103***

2. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and

Art Unit: 3764

the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

- b. Claim 2 is rejected under 35 U.S.C. 103(a) as being unpatentable over Cassidy et al as applied to claim 1 above and further in view of Mittelstadt. The rejection from the previous office action is incorporated herein.
  - c. Claims 6-7, 21-22 are rejected under 35 U.S.C. 103(a) as being unpatentable over Cassidy et al as applied to claim 1 and further in view of McLeon. The rejection from the previous office action is incorporated herein.
  - d. Claims 25-26 are rejected under 35 U.S.C. 103(a) as being unpatentable over Cassidy et al as applied to claim 1 above and further in view of Perry. The rejection from the previous office action is incorporated herein.
3. Claims 8-11, 13-19 objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
4. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of

Art Unit: 3764

the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
